## **German Companies profile to be invited:**

### **Smart Manufacturing:**

German companies with a focus on world-leading “hidden champions” from the German Mittelstand. These companies typically have more than 100m € yearly turnover and are leaders in their specific sub-sector, such as: Mechanical engineering + automotive supply industry, automation, electronics & electronic components, Telecommunications, etc.

### **Smart City & Smart Transportation:**

City officials and public transport managers from cities across southern Germany.
